

AZURE CLASSIC

Folding Arm Awning with preset slope adjustment

Rated as our Entry Model of folding arm awnings, the Azure Classic is recommended for covering large areas measuring up to 42sqm, giving you the flexibility to increase your outdoor entertaining spaces like no other folding arm awning within our range. The Azure Classic is available with or without hooding, it can also be motorised with Windoware motor system or with Somfy Motors (Windoware motor is inclusive of wind sensor as standard).

MAXIMUM WIDTH: 10.5metres - Wall or Ceiling Installation

Motorisation is quite a simple addition to our MTM range and with the release of the Windoware Motors, is much more affordable. 5 year warranty.

Please Note: Measurements using 4.0m Arms are different

- 3.5m and 4.0m arms require additional back bar brackets for strength.
- 4000mm Projection available in off white standard only.
- Mitjavila Folding Arm Awnings use an easy to wind standard 9:1 Ratio gearbox and standard stainless steel nuts and bolts, double protected aeronautical cables in the arms and a high quality white powdercoated finish.
- We only use a 78mm heavy duty galvanised steel tube to carry the fabric.
- Wall brackets are for wall and ceiling fix and additional ones can be ordered.
